

**Connecting
Individual Chefs
Directly with
Customers**

CHEF
—
CONNECT

Problem Statement

Make catering accessible for individual chefs.

What We Made

- **ChefConnect:** A platform for chefs to connect with customers directly.
- **Features:**
 - **Secure Payments:** Smart contracts handle all payments.
 - **Loyalty Tokens:** Earn and redeem tokens.
 - **Trusted Reviews:** Reviews are stored on the blockchain.

How It Works

1. **Chef Profiles:** Chefs create their profiles.
2. **Smart Contracts:** Automate payments and agreements.
3. **Token Rewards:** Earn tokens for transactions.
4. **On-Chain Reviews:** Real feedback, no fakes.

Demo

Tech Stacks

- **Blockchain:** BNB Chain and Scroll Testnet.
- **Frontend:** Next.js with MetaMask.
- **Tokens:** ERC20 tokens for loyalty.

Future Works

- **Full Catering Workflow:** Book, serve, and get paid.
- **Enhanced Governance:** Community-driven decisions.

Thank You
